1. RDC Budgeting for FY 67 - 68: I called a meeting of Messrs. [REDACTED] to the Agency establishing requirements for Agency responsibility to the RDC Program for FY 67 and the assumption that we will continue the Program for FY 68. After a general discussion we agreed as follows:

25X1A

25X1A

a. FE Division will pull up specific estimates on the costs of the [REDACTED] construction and equipment with time phases;

b. We will approach FY 67 on a war-budget basis establishing costs, levels of activity, and requirements for the expanded Program after we receive the 1 October determinations from Saigon. These will then be submitted for a supplemental but with a commitment in advance for immediate obligation for those months beginning in October up to the time when we actually obtain the supplemental; and

c. Since we cannot at this point project FY 68 in the absence of decisions to be made approximately 1 October, we will plan to submit an amended FY 68 on a war-budget basis on approximately 15 November at which time hopefully these decisions will have been made and we will have had time to project the cost estimate through FY 68.
